A LESSON TO ALL.

The Court of Appeals yesterday made decision in the notorious case of the Dutchess County Senatorial canvass in apparent. The State officers forming the Board of Canvassers for that year are held to be in contempt for canvassing the Myloid returns despite the restrain ing injunction of Judge Edwards, and are required to pay the fine imposed on them by the lower courts.

Never was a public crime so amply punished as the Senate stealing of 1891. In consequence of that act, the Demo-erats obtained control of the Legislature, the State census was taken, the Apportionment law was enacted and the Convention to amend the Constitution was ordered to be held. All these were made partisan measures, designed to keep the Democrats in power in the ward Maynard ended in disaster, on the first opportunity the Democrats were beaten in the Legislature, they lost the Constitutional Convention, and in a few days they go out of power not only in he State Government, but in the Demo cratic stronghold of this city.

Does not this read a lesson to the vicorious Republicans as well as to the iefeated Democrats?

HOW IT WAS DONE.

The Brooklyn New Englanders met for their annual self-gratulation yesterday, and naturally Mr. Chauncey M. Depew was present to entertain and delight th guests with one of his characteristic after-dinner speeches.
In the course of his remarks Mr.

Depew made a valuable contribution to history by putting on record the starting point and originating cause of the great political revolutions that have taken place in the two cities.

Three years ago, at a dinner given to the great orator in Brooklyn, he called attention in his speech to the rumors current of vast municipal corruption in the city of the churches. His the then Mayor of the city, who was one lask a question and by of the banqueters, and he left the table same dr.wing answers it, causing great in high dudgeon, That incident, Mr. Depew declares, aroused public sentiment, directed the attention of the citizens to the actual existence of the corruptions and incited the people to rise

Women Do Their Own Sex Harm. To the Editor: "Ambitious Girl" wants to know why em-

ployers take so little interest in respectable homeless girls. Being one of the latter, I am interested in that question, too. Allow me to say that I do not think the employers are entrely to blame. If they can save a few dollars by obtaining cheaper help, providing the larm by obtaining cheaper help, providing the larm a girl sixteen years and have never been in love but there is a young man in the house. Employers generally leave their senti nental feelings at home; it matters not to them mental feelings at home; it matters not to them I would like to send him a Christmas card, and how their help is situated, whether she has a not let him know who sent it. Would that be home, or whether she has enough to pay for her room and board, and to clothe herself warm-It is the women who have husbands to provide for them and women who have homes who are the most to blame. They work for less than living wages, thereby compelling the home-less girl to do the same. I could say a great deal more on this subject, but would like to hear what others have to say.

A Policeman's Vile Tongue.

As I was walking with a friend of mine through Essex street, between Stanton and Hous-ton, last night about \$ o'clock I saw a policeman chase a 'ad away from a door about three houses from where he lived. As the lad went into his house he told his friend he would see him to-morrow night. The policeman was right in back of him, and he called the lad some of the vitest ammes I ever heard a policeman utter. He also told the lad he would look him up if he saw the schooser are alike.
